## HILLCREST DAHLIA GARDENS

DR. A. B. SCOTT

FAIRMONT, WEST VIRGINIA

VISITORS ARE  
ALWAYS WELCOME.

The following is the KEY to our exhibition field and propogating gardens:

Letters and figures on brass check on stakes correspond with KEY.

S—Seedlings, Scott's.

G. S.—German Seedlings.

F. S.—French Seedlings.

X—On seedlings means plant roots.

XX—Propogate 10 plants.

XXX—Propogate 20 plants.

XXXX—Flower and bush will score 85 and over.

G—Before a number—German, imported from Kurt Engelhardt, celebrated gardens, Dresden, Germany.

H—Before a number—Imported from Holland.

B—Before a number—Foreign dahlias from many countries.

One will be disappointed in the foreign stock as their latitude is so far north that it will be at least one year before the organism gets acclimated. A 7-inch foreign bloom this year should grow at least to 10 inches next year.

My fields this year have had no nitrate and the method of chemotropism has been used in feeding.

We are offering to Dahlia growers, the above brass tag, strung with string that is impervious to the weather. Tag can be marked with china marking pencil, attached to stake and then removed and attached to clump of roots in the fall. String will not damage roots like wire tag.
